# Instructions for Schedule G-1

## Tax on Lump-Sum Distributions

### What's New

For taxable years beginning on or after January 1, 2002, California law was changed to clarify the method used to calculate loss carryovers, deferred deductions, and deferred income for nonresident and part-year resident taxpayers. This new law changes the tax computation to recognize those items, and establishes a new method to determine percentages for computing tax for all nonresidents and part-year residents. Beginning this year, the nonresident tax forms (Long and Short Form 540NR) have been revised to more clearly show that nonresidents pay tax to California only on their California taxable income. For further information, get Pub. 1100, Taxation of Nonresidents and Individuals Who Change Residency.

### Important

Even though California law changed this year, California does not impose tax on distributions from qualified retirement plans received by nonresidents after December 31, 1995.

Under California and federal law, the \$5,000 employer-provided death benefit exclusion has been repealed. Payments received in 2002 on behalf of decedents dying on or after August 21, 1996, do not qualify for the exclusion.

## General Information

### A Purpose

If you received a qualified lump-sum distribution in 2002, and were born before 1936, you can use Schedule G-1 to figure your tax by special methods that may result in less tax.

California law regarding the capital gain election and the 10-year averaging method on lump-sum distributions is generally the same as federal law. However, your California basis in your pension plan may differ from your federal basis. If you received a lump-sum distribution from a Keogh plan, your California basis includes the contributions that were not deductible for California purposes because they exceeded the California deduction limit for years prior to 1987. Get FTB Pub. 1005, Pension and Annuity Guidelines, for more information.

**Note:** For federal purposes, any capital gain is reduced by the amount of related estate tax. Since California has no estate tax, there is no comparable reduction.

**Early Distribution.** If you received an early distribution from a qualified retirement plan, you may have to pay an additional 2½% tax, unless the distribution meets one of the exceptions. Get form FTB 3805P, Additional Taxes on Qualified Plans (Including IRAs) and Other Tax-Favored Accounts.

### B Who Can Use the Form

If you received a qualified lump-sum distribution and were born before 1936 you can use Schedule G-1. If you received a qualifying distribution as a beneficiary after a participant's death, the deceased must have been born before 1936 for you to use this form for that distribution.

To determine if the distribution qualifies, see the instructions for federal Form 4972, Tax on Lump-Sum Distributions From Qualified Plans.

### C How to Use the Form

Use Schedule G-1 with Form 540, California Resident Income Tax Return; Long Form 540NR, California Nonresident or Part-Year Resident Income Tax Return; or Form 541, California Fiduciary Income Tax Return to:

- Choose the 5.5% capital gain method by completing Part II;
- Choose the 10-year averaging method by completing Part III; and
- Figure tax using the 10-year averaging method, which taxes the ordinary income part of the lump-sum distribution in the current year as if you received it in equal parts over 10 years.

#### 10-Year Averaging Method & Capital Gain Election.

If the participant was born before 1936, you can use Part III to choose the 10-year averaging method to figure your tax on the lump-sum distribution. You can choose this option whether or not you make the 5.5% capital gain election described in General Information F, Capital Gain Election.

If you use the special averaging method mentioned above, you must use it for all lump-sum distributions you receive in one taxable year.

**Distribution Statement.** The payer should have given you federal Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc. or other statement that shows the separate parts of your distribution. The amounts you will use from federal Form 1099-R in filling out Schedule G-1 are capital gain (box 3); ordinary income (box 2a minus box 3); total of ordinary income plus capital gain (box 2a); net unrealized appreciation (NUA) in employer's securities (box 6); and, if it applies, the current actuarial value of an annuity (box 8). If you do not have a statement that shows this information, ask the payer for one that does show it.

### D How Often You Can Choose

After 1986, you may choose to use Schedule G-1 only once for each plan participant. If you receive more than one lump-sum distribution for the same plan participant in 1 tax year, you must treat all those distributions in the same way. Combine them on a single Schedule G-1.

If you make an election as a beneficiary of a deceased participant, it does not affect any election you can make for qualified lump-sum distributions from your own plan. You can also make a separate election as the beneficiary of more than one qualifying person.

**Example.** Your mother and father died and each was born before 1936. Each participated in a qualified plan of which you are the beneficiary. You also received a qualified lump-sum distribution from your own plan and you were born before 1936. You may make a separate election for each of the distributions; one for yourself, one as your mother's beneficiary, and one as your father's. It does not matter if the distributions all occur in the same year or in different years. File a separate Schedule G-1 for each participant's distribution.

### E When You Can Choose

You can file Schedule G-1 with either an original return or an amended return. Generally, you have 4 years from the later of the due date of your tax return or the date you filed your return to choose to use any part of Schedule G-1.

### F Capital Gain Election

The plan participant must have been born **before** 1936 to be eligible for the capital gain election. Only the taxable amount of distributions resulting from pre-1974 participation qualifies for capital gain treatment. The amount that qualifies for capital gain treatment should be shown in Form 1099-R, box 3. If there is an amount in Form 1099-R, box 6 (net unrealized appreciation or NUA), part of it may also qualify for capital gain treatment. See the NUA Worksheet in the instructions for federal Form 4972, page 3, to figure the capital gain part of NUA. Figure the tax using 5.5% instead of the 20% used for federal purposes.

If your distribution includes capital gain, you can either:

- Make the 5.5% capital gain election in Part II of Schedule G-1; or
- Treat the capital gain as ordinary income.

### G Tax on Prior Year Lump-Sum Distributions

In some circumstances, the federal rules for multiple lump-sum distributions do not apply for California. Under California law, if you received a lump-sum distribution before 1987 and you received a lump-sum distribution in 2002 that is the only lump-sum distribution you received after 1986, figure your tax on the lump-sum distribution for 2002 separately on Schedule G-1. Do **not** include the lump-sum distribution you received before 1987 on Schedule G-1.

## Specific Line Instructions

If you received more than one qualified distribution for the same plan participant, add them and figure the tax on the total amount.

If you and your spouse file a joint return and each has received a lump-sum distribution, complete and file a separate Schedule G-1 for each spouse's election and combine the tax on Form 540, line 23 or Long Form 540NR, line 26.

If you file for a trust that shared the distribution only with other trusts, figure the tax on the whole lump sum first. The trusts then share the tax in the same proportion that they shared the distribution.

#### Part II

##### Line 6

Enter zero (-0-) and go to Part III if your distribution does not include capital gain, or if you are not making the 5.5% capital gain election.

If you make the 5.5% capital gain election but do not take a death benefit exclusion, enter on line 6 the entire capital gain amount from federal Form 1099-R, box 3.

If you make the 5.5% capital gain election and you are taking the death benefit exclusion, figure the amount to enter using the worksheet on the next page.

## Death Benefit Worksheet

- A.** Enter the capital gain amount from Form 1099-R, box 3. If you elected to include NUA in taxable income, enter the amount from line G of the NUA Worksheet in federal Form 4972 instructions . . . . .
- B.** Enter the taxable amount from Form 1099-R, box 2a. If you elected to include NUA in taxable income, add the amount from Form 1099-R, box 6, to the amount from Form 1099-R, box 2a, and enter the total here . . . . .
- C.** Divide line A by line B and enter the result as a decimal . . . . .
- D.** Enter your share of the death benefit exclusion\* . . . . .
- E.** Multiply line D by line C . . . . .
- F.** Subtract line E from line A. Enter the result here and on Schedule G-1, line 6 . . . . .

\*The \$5,000 death benefit exclusion for employer-provided death benefits applies only for decedents who died before August 21, 1996. If there are multiple recipients of the distribution, allocate the \$5,000 maximum death benefit exclusion among the recipients in the same proportion that they share the distribution.

Enter the remaining allowable death benefit exclusion in Part III, line 9, and see the instructions for line 9.

## Part III

To figure your tax on the lump-sum distribution with the 10-year averaging method, complete line 8 through line 28.

Enter the result of the 10-year averaging from line 28, on Form 540, line 23; Long Form 540NR, line 26; or Form 541, line 21b.

## Line 8

Community property laws do not apply to figuring tax on the amount you report on line 8.

If you made the capital gain election, enter only the ordinary income from Form 1099-R on this line. To figure this amount, subtract Form 1099-R, box 3, from Form 1099-R, box 2a. Enter the result on line 8. If you included NUA in taxable income, then add the amount from line F of the NUA Worksheet in federal Form 4972 instructions to the ordinary income amount computed previously.

If you did not make the capital gain election (Part II) and did not elect to include NUA in taxable income, enter the amount from Form 1099-R, box 2a.

If you did not make the capital gain election but did elect to include NUA in your taxable income, add the amount from Form 1099-R, box 2a, to the amount from Form 1099-R, box 6. Enter the total on line 8. On the dotted line to the left of the entry, write "NUA" and the amount of NUA included.

## Line 9

If you received a distribution in 2002 because of the plan participant's death that occurred before August 21, 1996, you may exclude up to \$5,000 of the distribution from your gross income. However, if part of the death benefit exclusion was allowed in Part II, you must reduce the allowable exclusion by the amount on line E of the Death Benefit Worksheet.

If the trust for which you are filing shared the lump-sum distribution with other trusts, it will share the exclusion in the same proportion as it shared the distribution. This exclusion applies to the beneficiaries or estates of common-law employees, self-employed individuals, and shareholder-employees who owned more than 2% of an S corporation.

## Line 21

Decimals should be carried to four places and rounded to three places. Drop amounts 4 and under (.4434 becomes .443). Round amounts 5 and over up to the next number (.4445 becomes .445).

## Line 19 & Line 25

Use the tax rate schedule above to your right to complete Part III, line 19 or line 25.

## Tax Rate Schedule for Part III, 10-Year Averaging

If the amount on Part III,  
line 18 or line 24 is:

Enter on Part III, line 19 or line 25

## Multiple Recipients of a Lump-Sum Distribution

If you shared a lump-sum distribution from a qualified retirement plan when not all recipients were trusts (a percentage will be shown on federal Form 1099-R, box 8 and/or box 9a), figure the tax on your distribution as follows:

**Line 8** – Use the table below to determine the amount to enter on Schedule G-1, line 8.

If in Part II	Is Net Unrealized Appreciation (NUA) included in your taxable income?	– Computation – Use Form 1099-R Amounts
You did not make the capital gain election.	NO	Divide box 2a by the percentage in box 9a.
	YES	Add box 2a and box 6. Divide the result by the percentage in box 9a.
You made the capital gain election.	NO	Subtract box 3 from box 2a. Divide the result by the percentage in box 9a.
	YES	Subtract box 3 from box 2a. Add to line F of the NUA worksheet on page 3 of federal Form 4972 instructions. Then divide the result by the percentage of distribution shown in box 9a.

**Line 11** – Divide the amount shown on federal Form 1099-R, box 8, by the percentage shown on federal Form 1099-R, box 8.

**Line 28** – Complete the following worksheet:

- A.** Enter your percentage of distribution from Form 1099-R, box 9a . . . . . **A** \_\_\_\_\_
- B.** Enter the amount from Schedule G-1, line 27 . . . . . **B** \_\_\_\_\_
- C.** Multiply line A by the amount on line B . . . . . **C** \_\_\_\_\_
- D.** Enter the amount from Part II, line 7 . . . . . **D** \_\_\_\_\_
- E.** Add line C and line D. Enter the result here and on line 28 . . . . . **E** \_\_\_\_\_
